## Close:

What do you feel is the best place to start? We just need to get your foot in the door. We can always bump it up.

Think about it? What I recommend is that you pick something that you don't have to think about. A starter plan is fine. We don't know what tomorrow will bring.

Decision: I think that is a real good place to start. Let's take a few minutes and get you both signed up today and start the process.

Debt Free for Life: One more thing... we talked earlier about that plan to cover your loan in a third or half the time without financing. Would you like to look at the math on that?
